SAFETY INFORMATION

Warning

Harmful if swallowed.
Causes serious eye damage.
Wear protective gloves/protective clothing/eye protection/face protection.
IF SWALLOWED: Call a POISON CENTRE/doctor if you feel unwell. Rinse mouth.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE/doctor.
To avoid risks to human health and the environment, comply with the instructions for use.

The (COSHH) Control of Substances Hazardous to Health Regulations may apply to the use of this product at work. Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment: WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS), SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate. However engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection. Where the personal protective equipment specified on the ACTIVATOR 90 label is different to that specified on the pesticide label, the highest level of protective equipment must be worn.

RATES OF USE

ACTIVATOR 90 is authorised for use up to a maximum concentration of 0.1% dilution of the final water volume e.g:-

Water Volume	Required Quantity of ACTIVATOR 90 at 0.1%
200 litres/ha	200 ml
400 litres/ha	400 ml

MIXING

Half fill the spray tank with water and commence agitation. Add the required quantity of **ACTIVATOR 90** then add the recommended quantity of pesticide. Continue agitation while topping up the tank and during spraying.

DIRECTIONS FOR USE

ACTIVATOR 90 can be used with all approved pesticides which have a recommendation for use with a non-ionic wetter.

Not all Horticultural / Amenity crops and or situations have been evaluated. Therefore you are advised to try the product first on a small scale before widespread use. This is especially important with those crops known to be sensitive or where even minor speckling of the leaves would reduce their value e.g. flower crops. De Sangosse Ltd. is unable to accept liability for any damage resulting from failure to follow these guidelines.

ACTIVATOR 90 may be used at a maximum concentration of 0.1% of spray solution on certain crops, up to specific growth stages, with all approved pesticides, applied up to their full approved rate.

ACTIVATOR 90 is authorised for use with all approved pesticides on all edible crops provided that the statutory conditions of use for the pesticide are followed and that the pesticide is not used at more than 50% of the maximum approved rate for that application.

ACTIVATOR 90 is authorised for use with all approved pesticides on all non-edible crops provided that the statutory conditions of use for the pesticide are followed.

ACTIVATOR 90 may be used to reduce drift of sprays where this is a concern.

For Specific Recommendations contact De Sangosse Ltd or its appointed Distributors.

CONDITIONS OF SUPPLY

All goods supplied by us are high grade and we believe them to be suitable, but as we cannot exercise control over their storage, mixing or use, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded. No responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use.
