XTRA-FOL

NPK 8:8:7 + 2.5% SO_3 + Trace Elements + seaweed and plant extracts

COMPOUND FLUID FERTILISER

Maxicrop Xtra-Fol is a liquid fertiliser containing NPK, Sulphur, trace elements, plant extracts and Maxicrop seaweed extract. It can be safely used on a wide range of agricultural and horticultural crops, to help supplement soil applied nutrients and is especially useful to help maintain plant development during periods of rapid growth or stress (when a plant's ability to take up soil nutrients may be limited).

The balanced NPK fertiliser meets the general nutritional requirements of most plant types and the sulphur content is an important constituent in the production of plant amino acids and proteins. The trace element package provides a balanced supplement for healthy growth, though it should be noted that it will not correct severe micro nutrient deficiencies.

In addition to providing a balanced level of nutrition, Maxicrop Xtra-Fol also contains Maxicrop seaweed extract, which has various beneficial effects, including:

- Helps stimulate beneficial soil microbes
- Can help stimulate early root growth and development
- Enhances chlorophyll production and retention
- Helps the plant cope with abiotic stress factors
- Helps produce strong, healthy growth even in hostile growing conditions

The balanced NPK fertiliser meets the general nutritional requirements of most plant types.

XTRA-FOL
COMPOUND FLUID FERTILISER

NPK 8:8:7
2.5% SO_3
Boron (B) 0.01%
Copper (Cu)* 0.002%
Iron (Fe)* 0.07%
Manganese (Mn)* 0.017%
Zinc (Zn)* 0.01%
Molybdenum (Mo) 0.0012%

** EDTA chelated*

The net effect is to produce a strong, healthy crop that is able to cope with various growth stresses, for optimum yield and quality.

- **Foliar sprayer:** apply @ 3-5 litres per ha in 200-600 litres of water/ha. Apply when enough leaf cover is available, at 10-14 day intervals or as required.
- **Knapsack sprayer:** apply 100 ml in 10 litres of water at 10-14 day intervals or as required, thoroughly wetting the foliage.
- **Product compatibility:** Due to the wide range of different spray products available, it is impossible to test all combinations and we cannot accept any liability for any loss or damage. If in doubt, we recommend carrying out a bucket test to check compatibility.

Maxicrop Xtra-Fol is available in boxes of 2 x 10 litres.
