MMC-PRO: A powerful anti-bacterial disinfectant for the easy treatment, removal and prevention of green mould and algae on a wide range of hard surfaces. Also suitable as a pre-paint fungicidal wash.

Reaction time: kills green mould and algae in 2–4 days, and slowly cleans exposed surfaces in weeks and months to come. Any residual dead growth can be lightly brush away. Some concrete and hard surfaces may turn rusty brown in patches; this is a normal reaction and discolouration (dead/dying green mould/algae) will soon dissipate. It also kills black mould in typically 10–14 days, but residual black mould pigment staining may persist.

Area of Application: Surface biocide for Amateur and Professional use against mould, algae and lichen on internal and external hard surfaces, including paving, patios, brickwork, glass, tiles and masonry.

5 060167 890055

Application Method: Spray (low pressure).

Application: Apply to dry surfaces only. Dilute 1:4 with water for normal use (or up to max 1:9 for light growths) and apply with low-pressure equipment. Saturate the surface and leave to dry. Rinse out applicator after use. Do not apply if rain is expected in the next 5–6 hours. Covers an area of about 3 sq.m (horizontal surfaces) to 7 sq.m (vertical surfaces) per litre of diluted product.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE

FOR USE ONLY AS A SURFACE BIOCIDE.
READ ALL PRECAUTIONS BEFORE USE.
HSE No 7824-GB.

APPLICATION RATES:

Average growth: Dilute 1 part of MMC-PRO with 4 parts of water. Apply 1 litre of diluted product per 3–7 square metres of surface.

Light growth: Dilute 1 part of MMC-PRO with 9 parts of water. Apply 1 litre of diluted product per 3–7 square metres of surface.

User must comply in full to their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of approval.

DANGER

WEAR PROTECTIVE GLOVES & EYE PROTECTION.

Causes skin irritation. Causes serious eye damage. Very toxic to aquatic life with long lasting effects. Keep out of reach of children. Wash hands, forearms and face thoroughly after handling. Avoid release to the environment. Wear protective gloves, eye protection, face protection. IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. The Control of Substance Hazardous to Health Regulation 2002 (as amended) applies to the use of this product at work.

Active Ingredient: Didecyl Dimethyl Ammonium Chloride 8.9%w/w. Contains: Didecyl Dimethyl Ammonium Chloride, C9-11 PARETH-8.

UFI: U86U-797T-300C-H4ER. Formulation Type: PT 2.
Use BIOCIDES SAFETLY AND SUSTAINABLY. Always read the label and product information before use.

PRECAUTIONS

Keep all animals off treated surfaces until completely dry (often 5–6 hours).

• Do not breathe mist/spray. • Keep away from treated surfaces until dry. • Do not contaminate foodstuff, eating utensils or food contact surfaces. • Avoid excessive contamination of coveralls. • Wash hands and exposed skin before meals and after use. • Keep in a safe place. • Avoid all contact with plant life (if contact, flush with clean water). • Store in a cool, well ventilated area, away from direct sunlight. • Keep container tightly closed. • Disposal of contents/container in accordance to local regulation. • To avoid risk to man and the environment, comply with the instructions for use.
