ADDIT
Adjuvant no. A0910

Addit contains an emulsifiable vegetable oil (780.2 g/l rapeseed triglycerides) and trisiloxane organosilicone copolymers (70.9 g/l).

GENERAL
Addit gives improved and prolonged performance of biological and conventional insecticides, acaricides and fungicides against thrips, whitefly, leaf miner, caterpillar, spider mite and powdery mildew.
Addit acts as a spreading, sticking and wetting agent.
Addit improves the attachment of the plant protection product to the plant and provides an excellent spreading activity.
Addit improves the effect of Mycotal (MAPP no. 16644) against whitefly, also at lower relative humidity.

APPLICATION
Addit should only be used as a tank-mix with plant protection products. If no experience has been gained using a plant protection product in a specific crop in combination with Addit, it is strongly recommended that a small area of the crop is treated before applying it on a larger scale.
For dosage, application and registered crops, consult the directions for use of the plant protection product.

DOSAGE
- For use with Mycotal (MAPP no. 16644): 0.25% (250 ml in 100 litres of water).
- For use with all authorised plant protection products on non-edible crops and non-crop production: 0.25% (250 ml in 100 litres of water).
- For use with all authorised plant protection products on edible crops at half, or less than half, the authorised plant protection product rate: 0.125% (125 ml in 100 litres of water).

PREPARATION OF SPRAY SOLUTION
Prepare the spray solution of the plant protection product according to the directions on the label.
Shake the Addit container well before use.
Add the correct amount of Addit to the spray solution.
Mix thoroughly and spray immediately.

SAFETY PRECAUTIONS

Hazard statements
H412 - Harmful to aquatic life with long lasting effects.

Precautionary statements
P273 - Avoid release to the environment.
P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

Operator protection
Operators must follow all operator protection instructions for the plant protection product.

STORAGE
In a cool, dry place (not below 10 °C). If Addit has been stored below 10 °C, then, before using the product, allow it to reach room temperature, and shake well, until the precipitate has disappeared. Keep away from direct sunlight.

PACKAGING
The packaging is industrial waste. Rinse before disposal.
