FOR USE ON:

- MASONRY
- ROOFS
- PAVING
- DECKING
- DRIVEWAYS
- TENNIS COURTS
- MONUMENTS
- GRAVEL
- ASPHALT
- FIBREGLASS
- PVC
- GLASS
- TARMAC
- PLASTIC
- METAL
- SLATE
- STONE
- BRICKWORK
- PAINTWORK
- HEADSTONES
- PAVEMENTS

BRITISH MADE

APPLY AND WALK AWAY

WORKS IN DAYS LASTS FOR MONTHS

ALGICLEARPRO

SUPER CONCENTRATE

DILUTE 1:20

5 LITRES CONCENTRATE MAKES 105 LTRS COVERAGE 1250m²

BIODEGRADABLE

MULTI SURFACE MOULD ALGAE LICHEN & LIVERWORT KILLER

- NON ABRASIVE
- EASY APPLICATION
- LONG LASTING
- NO PRESSURE WASHING REQUIRED
- CLEANS ALL EXTERIOR SURFACES
- NO SCRUBBING

ACID AND BLEACH FREE

ALGICLEARPRO – *works in days, lasts for months.*

- **AlgiclearPro** is a surface biocide for use against mould, algae, lichen and liverwort on all external hard surfaces. Also suitable for indoor use.
- **AlgiclearPro** uses patented technology, which cleverly lifts the algal cell and encapsulates it.
  This causes the cell to dry out and simply blow away.
- The active polymers in **AlgiclearPro** create a surface inhibiting the regeneration of the parasitic organisms – therefore preventing re-growth.
- Just thoroughly wet the **DRY** surface and walk away. No scrubbing, pressure washing or rinsing required.
- **AlgiclearPro** is a twin effect product, having residual affects for approximately 9 months after application.

DIRECTION FOR USE

- **Dilute 1 part AlgiclearPro with 20 parts** water to create active solution.
  This is a guideline only and strength maybe increased if contamination is heavy.
- **Try to apply when at least 24 hours of dry weather is forecast.**
- **THOROUGHLY** saturate the **DRY** surface evenly using a watering can with rose, trigger spray or low pressure sprayer.
- **DO NOT** brush or scrub surfaces after wetting.
- Leave for **2 to 5** days before effect is noticed. Any residual dead growth can be lightly brushed away.
- Coverage: **8- 12 m²** per litre of diluted solution.
- On stubborn/heavy contamination it can take a few applications and up to 6-12 months to get the problem under control. A higher strength solution may help solve this sooner. A second application 1-2 months after the first may also assist.
- **KEEP AWAY FROM TREATED SURFACES UNTIL DRY.**
- **AlgiclearPro** will work quicker on warm bright sunny days. It takes slightly longer to work in cold, dull conditions.
- Where there is heavy contamination for best results this should be removed physically before treatment.
- Try to apply **AlgiclearPro** at a time when at least **24 hours** of dry weather is forecast.
- Rinse out all buckets, sprayers and watering cans after use.
- For Lichen removal apply a second application before the first application has dried. Once again a higher concentrate solution may help.
- **MAINTENANCE AlgiclearPro** should be applied around every 9 -12 months to maintain the surface. Apply as soon as there are signs of contamination. Applications can be made up to twice a year. If you have heavy contamination you may need to scrub with a broom and then re-apply one month after the first application. Once the heavy contamination has been removed the general maintenance guidelines apply
- **PLANTS** - Avoid spraying plants. If you do accidentally contaminate plants flush with water.
- **PETS** - Keep your pets away whilst applying the product and until the area has completely dried. Wash paws with water if contamination occurs

DANGER: Causes severe skin burns and eye damage. Do not breath mist/vapours/spray. Wear protective gloves, protective clothing, eye protection, face protection. If SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE. -. HSE Number 6835
FOR USE ONLY AS A SURFACE BIOCIDE ON INTERNAL AND EXTERNAL SURFACES. FOR USE BY PROFESSIONAL OPERATORS ONLY. APPLICATION RATES : Dilute 50ml of product with 1litre of water, and then apply at a rate of 1 litre of diluted product per 10 square metres of surface (dependent upon contamination and surface porosity). User must comply in full with all their legal responsibilities under Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval. READ ALL PRECAUTIONS BEFORE USE. ACTIVE INGREDIENT Contains Alkyl(C12-16) dimethylbenzalkonium chloride 10% w/w 100g/Litre Use in accordance with instructions on the label.

PRECAUTIONS FOR HANDLING & USE: AVOID CONTACT WITH EYES AND SKIN. WASH HANDS AND EXPOSED SKIN before meals and after use. WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS), SYNTHETIC RUBBER GLOVES, EYE/FACE PROTECTION. AVOID EXCESSIVE CONTAMINATION OF COVERALLS and launder regularly. DO NOT BREATHE SPRAY MIST. Otherwise wear respiratory protective equipment and eye protection (see HSE Guidance booklet HS (G) 53:"The selection, use and maintenance of Respiratory Protective equipment"). WHEN USING DO NOT EAT DRINK OR SMOKE. DO NOT CONTAMINATE FOODSTUFFS, FEEDING UTENSILS, FOOD CONTACT SURFACES. KEEP AWAY FROM TREATED SURFACES UNTIL DRY. AVOID CONTACT WITH FISH TANKS, PONDS AND ANY AQUATIC LIFE. DO NOT CONTAMINATE WATER COURSES.

FIRST AID: Seek medical advice immediately if swallowed. Show them this container or label. Do not induce vomiting. If skin contamination occurs, rinse well with soap and water. If you get contamination in the eyes rinse immediately with clean water and seek medical advice.

DISPOSAL: Please ensure that this container and its contents are disposed of in a safe way and in accordance with local legislation. Do not empty contents into drains. Collect any spillages.

COSHH The (COSHH) Control of Substances Hazardous to Health Regulations 2002 (as amended) apply to the use of this product at work.

TO AVOID RISKS TO MAN AND THE ENVIRONMENT COMPLY WITH THE INSTRUCTIONS FOR USE. *KEEP OUT OF REACH OF CHILDREN *KEEP IN A SAFE PLACE.
