CALLOS - Complexed Calcium nutritional feed

If medical advice is needed, have product container or label at hand.
Read label before use.
Do not eat, drink, or smoke when using this product.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
Wash hands and exposed skin thoroughly after handling.
IF ON SKIN: Wash with plenty of water.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Remove person to fresh air and keep comfortable for breathing.

To avoid risks to human health and the environment, comply with the instructions for use.

		w/v %
Amide nitrogen	(N)	3.9
Calcium	(CaO)	14.5
Boron	(B)	0.25
Amino acids		0.4

IMPORTANT INFORMATION

CALLOS utilises Flex complex nutrient uptake technology, supplying calcium as a carbon and amide complex with amide Nitrogen, Boron, and essential Amino acids.

Crops/situations

Ornamentals, protected edibles, soft fruit, top fruit, vines.

Full application and crop specific details are given on the attached leaflet.

SHAKE WELL BEFORE USING.

STORAGE

Protect from frost. Store away from direct sunlight. Ensure adequate ventilation. If product has been stored in poor conditions, open slowly to safely release any gases present.

DIRECTIONS FOR USE: ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE

CALLOS utilises Flex complex nutrient uptake technology, supplying calcium as a carbon and amide complex with amide Nitrogen, Boron, and essential Amino Acids.

Important: This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.
Compatibility: For details of compatibilities, contact your distributor or local AIVA FERTILISER representative.

Important information
Use to treat calcium deficiency.
AVOID mixing with phosphate or sulphate based fertilisers, unless applying with AIVA complexed phosphorus or sulphur.
Use as part of a good agronomic foliar feed programme as part of an Integrated Pest Management (IPM) Strategy.
Take tissue tests to ascertain whether CALLOS is required to prevent phytotoxicity, nutrient luxury uptake and nutrient antagonisms within the plant.
Do NOT apply when crop is under severe stress, or in adverse weather conditions.
Contact your AIVA FERTILISER Nutrition Consultant for agronomic advice regarding CALLOS.

APPLICATION GUIDELINES

Mixing guide
Fill sprayer with half the required water, shake CALLOS container and add required amount to sprayer tank whilst maintaining constant agitation. Add remaining water to sprayer tank, agitate and spray.
Apply in a minimum of 200L/ha of water.

Crop	Timing	Rate L/ha	Water rate L/ha	Comments
Ornamentals	From 2-4 true leaves	1-2	200-400	Repeat every 10-21 days
Protected edibles	From first fruit set	2-3	400-600	Repeat every 10-21 days
Soft fruit	From 2 weeks post planting	1-3	200-600	Repeat every 10-21 days
Top fruit	From petal fall	2-3	400-600	Repeat every 10-21 days
Vines	From 2-4 true leaves	2-3	400-600	Repeat every 10-21 days

HANDLING AND STORAGE

Do not contaminate water, food, or feed by storage or disposal.
Storage: Protect from frost. Store away from direct sunlight. Keep away from food and feedstuffs. Ensure adequate ventilation. If product has been stored in poor conditions, open slowly to safely release any gases present.
Accidental release measures: Do not release large quantities into the surface water or into drains. Adsorb spillages onto sand, earth, or any suitable adsorbent material.
Container handling: On emptying the container, rinse container thoroughly by using an integrated pressure rinsing device or by manually rinsing three times. Add washings to tank at time of filling and dispose of container safely. Container may be offered for recycling if available or dispose of in a sanitary landfill, or by other procedures allowed by state and authorities.

CONDITIONS OF SUPPLY

AIVA FERTILISER guarantees that CALLOS is fit for the purpose and conforms to the specifications stated on this label. AIVA FERTILISER gives no warranty, express or implied, including the warranties of commercially acceptable quality and/or fitness for any particular purpose concerning this material, other than those which are stated on this label, and will not be liable for any direct or indirect damage which results from incorrect use of the product or non-compliance with the directions of this label.

HEALTH AND SAFETY INFORMATION

Description of first aid measures	
If inhaled	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
If on skin	Wash skin with plenty of water.
If in eyes	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If swallowed	Wash out mouth with water.
General information	Treat symptomatically.

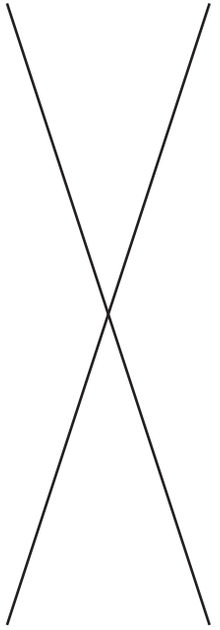

User safety recommendations

Applicators and other handlers should wear:
• Suitable protective clothing (coveralls).
• Wear eye protection with side protection (EN ISO 16321-1).
• Suitable protective gloves.
• Normally no personal respiratory protection is necessary.

Users should:
• Wash hands thoroughly after handling and before eating, drinking, smoking, or using the toilet.
• Remove PPE after handling this product.
• Wash the outside of the gloves thoroughly before removing.
