Hyperox®

POWERFUL BROAD SPECTRUM MULTIPURPOSE DISINFECTANT

DISINFECTANT

STORE CONTAINER UPRIGHT

Unique, stabilised peracetic disinfectant

Effective against a wide range of pathogens

Proven highly effective at low temperatures

UK DEFRA Approvals:

This disinfectant product has been approved for disinfection of inanimate surfaces where an approved product is required to be used under the control legislation for the following specific disease(s) orders;

Foot-and-mouth disease at the dilution rate of one part of this preparation plus 150 parts of water;

Poultry diseases including avian influenza, influenza of avian origin in mammals, Newcastle disease, paramyxovirus at a dilution rate of one part of this preparation plus 150 parts of water;

This disinfectant product has also been approved at a dilution of 1 part of this preparation plus 179 parts water for disinfection of inanimate surfaces where General Orders require the use of an approved disinfectant, but this approval **does not** apply to disinfection required under the specific control legislation relating to Swine Vesicular disease and Tuberculosis disease.

This approval is granted under the Diseases of Animals (Approved Disinfectants) Orders made by the Secretary of State for Environment, Food and Rural Affairs in England, Scottish ministers in Scotland and Welsh ministers in Wales. For confirmation of continuing approval refer to the Defra list of approved disinfectants at http://disinfectants.defra.gov.uk

The contents of this container are guaranteed by the manufacturer to be of the same composition and quality as the sample submitted for approval testing.

Danger

Hydrogen Peroxide solution…%
Index-No. 008-003-00-9
Peracetic acid…%
Index-No. 607-094-00-8

H242	Heating may cause a fire.
H290	May be corrosive to metals.
H302+H312+H332	Harmful if swallowed, in contact with skin or if inhaled.
H314	Causes severe skin burns and eye damage.
H335	May cause respiratory irritation.
H410	Very toxic to aquatic life with long lasting effects.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P234	Keep only in original container.
P273	Avoid release to the environment.
P280	Wear protective gloves/ protective clothing/ eye protection/ face protection.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.

Corrosive to the respiratory tract.

Directions for use
Use at a 1% (1:100) dilution rate: Add 10ml of Hyperox® concentrate to every litre of water.

Surface & Equipment Disinfection
For routine disinfection of surfaces and moveable equipment, use a pressure washer or other mechanical sprayer, and apply Hyperox® solution at an application rate of 300ml/m².

Disinfectant Footdips and Wheeldips
Replenish solution every 2-3 days or when visibly soiled.

Terminal Water System Disinfection
Isolate header tank at the mains and drain off drinker points farthest from the tank. Clean out any gross soiling. Refill with water and add the appropriate volume of Hyperox® and leave for 10 minutes. Flush through to all drain off points and leave for 50 minutes. Drain entire system before refilling with clean water.

For alternate dilution rates, or for guidance on thermal fogging applications, please contact DuPont directly.

NB: For surface and equipment disinfection allow for a minimum contact time of 30 minutes. The frequency of disinfectant application will depend on the individual site's biosecurity requirements. Consult DuPont for further advice.

Precautions
• Use disinfectants safely. Always read the label and product information before use. • Do not return unused concentrated product to this container, in order to avoid the possibility of contamination. • Store in original container, at temperatures not exceeding 25ºC, and out of direct sunlight. Store container upright at all times. • Do not dispose of the concentrate or its dilutions into or near any watercourses. • Do not mix with other chemicals except those recommended by the manufacturer. • Do not store product in application equipment overnight (e.g. spraying equipment tanks). • Always rinse application equipment with clean water after use. • Ensure adequate protection against spray mists and aerosols of the diluted product during spray application. • Unprotected persons must not enter areas being treated until spray mists have dispersed. • Remove all livestock prior to disinfection.

First Aid Measures:
General advice: Keep upper body upright. Never give anything by mouth to an unconscious person. When symptoms persist or in all cases of doubt seek medical advice.
Inhalation: Move to fresh air. If victim has stopped breathing: Artificial respiration and/or oxygen may be necessary. Consult a physician.
Skin contact: Wash off immediately with plenty of water. Take off contaminated clothing and shoes immediately. Consult a physician.
Eye contact: Remove contact lenses. Rinse thoroughly with plenty of water, also under the eyelids. Keep eye wide open while rinsing. Seek medical advice.
Ingestion: Do NOT induce vomiting. Rinse mouth. Drink 1 or 2 glasses of water. Call a physician immediately.
