Phoster

PHOSTER - Concentrated, highly plant available Phosphite

WARNING
Eye Irrit. 2: Causes serious eye irritation.
Wash thoroughly after use.
Wear protective gloves/protective clothing/eye protection/protective footwear.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

To avoid risks to human health and the environment, comply with the instructions for use.

	w/v %
Phosphorus (P_2O_5)	42.6
as Phosphite (PO_3)	42.6
Potassium (K_2O)	28.4

IMPORTANT INFORMATION

PHOSTER is a concentrated formulation of highly plant available Phosphite. A true plant bio-stimulant that offers highly beneficial plant physiological effects.

Crops/situations
Hardy nursery stock, pot & bedding plants, protected edibles, soft fruit, cane fruit, top fruit, vines.

Full application and crop specific details are given on the attached leaflet.

SHAKE WELL BEFORE USING.

STORAGE

Protect from frost. Avoid sources of heat, radiation, static electricity, and contact with food.

DIRECTIONS FOR USE: ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE

Important: This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.
Compatibility: For details of compatibilities, contact your distributor or local AIVA FERTILISER representative.

Important information
AVOID mixing with calcium based fertilisers.
Use as part of a good agronomic foliar feed programme as part of an Integrated Pest Management (IPM) Strategy.
Take tissue tests to ascertain whether PHOSTER is required to prevent phytotoxicity, nutrient luxury uptake and nutrient antagonisms within the plant.
Do NOT apply when crop it under severe stress, or in adverse weather conditions.
Contact your AIVA FERTILISER Nutrition Consultant for agronomic advice regarding PHOSTER.

Mixing guide
Fill sprayer with half the required water, shake PHOSTER container and add required amount to sprayer tank whilst maintaining constant agitation. Add remaining water to sprayer tank, agitate and spray.

FERTIGATION APPLICATION

Crop	Timing	Rate L/ha	
Hardy nursery stock	From 2-4 true leaves	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Pot & bedding plants	From 2-4 true leaves	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Protected edibles	From 2-4 true leaves	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Soft fruit	From green bud	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Cane fruit	From green bud	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Top fruit	From petal fall	0.75-1.5	per 100L of stock solution at 1:100 (1%)
Vines	From full leaf extension	0.75-1.5	per 100L of stock solution at 1:100 (1%)

Comments Repeat all fertigation applications every 10-14 days. Stop applications 10-14 pre fruiting

FOLIAR APPLICATION

Crop	Timing	Rate L/ha	Water rate L/ha
Hardy nursery stock	From 2-4 true leaves	0.75-1.5	200-600
Pot & bedding plants	From 2-4 true leaves	0.75-1.5	200-600
Protected edibles	From 2-4 true leaves	0.75-1.5	200-600
Soft fruit	From green bud	0.75-1.5	200-600
Cane fruit	From green bud	0.75-1.5	200-600
Top fruit	From petal fall	0.75-1.5	200-600
Vines	From full leaf extension	0.75-1.5	200-600

Comments Repeat all foliar applications every 10-14 days. Stop applications 10-14 pre fruiting

CONDITIONS OF SUPPLY

AIVA FERTILISER guarantees that PHOSTER is fit for the purpose and conforms to the specifications stated on this label. AIVA FERTILISER gives no warranty, express or implied, including the warranties of commercially acceptable quality and/or fitness for any particular purpose concerning this material, other than those which are stated on this label, and will not be liable for any direct or indirect damage which results from incorrect use of the product or non-compliance with the directions of this label.

HANDLING AND STORAGE

Do not contaminate water, food, or feed by storage or disposal.
Storage: Protect from frost. Avoid sources of heat, radiation, static electricity, and contact with food. Ensure adequate ventilation. If product has been stored in poor conditions, open slowly to safely release any gases present.
Accidental release measures: Keep product away from drains, surface and ground water. Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents.
Container handling: On emptying the container, rinse container thoroughly by using an integrated pressure rinsing device or by manually rinsing three times. Add washings to tank at time of filling and dispose of container safely. Container may be offered for recycling if available or dispose of in a sanitary landfill, or by other procedures allowed by state and authorities.

HEALTH AND SAFETY INFORMATION

Descripion of first aid measures	
If inhaled	In case of symptoms of intoxication, remove the person affected from the exposure area and provide fresh air. Seek medical attention if the symptoms get worse or persist.
If on skin	Clean the affected area thoroughly with water and neutral soap. In case of changes to the skin (stinging, redness, rashes, blisters,...), seek medical advice.
If in eyes	Rinse eyes thoroughly with lukewarm water for at least 15 minutes. Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes. In all cases, after cleaning, a doctor should be consulted as quickly as possible.
If swallowed	Seek immediate medical assistance.

User safety recommendations

Applicators and other handlers should wear:
• Suitable protective clothing (coveralls), CE III is recommended.
• Wear eye protection with side protection, clean daily and disinfect.
• Suitable protective gloves, CE III is recommended.
• Respiratory protection will be necessary if a mist forms or the occupational exposure limits are exceeded.
