INSTRUCTIONS FOR USE

WHEN TO USE
Spray at first signs of infestation and repeat at 7 day interval, depending on the crop. Make a second application for optimum pest control when conditions favour prolonged infestation. Refer to table for details of dilution rates, maximum number of sprays, interval between treatments and number of days to leave between spraying and harvesting the crop • For best results, only use on plants which are actively growing • The best time to spray is early morning or evening • Do not spray in bright sunlight or when plants are dry at the roots • This product may stain soft furnishings or other absorbent surfaces • Do not treat sensitive varieties with delicate foliage. It is recommended to test a small number of plants to confirm plant safety • Resistance - Pesticide resistance in whitefly and some aphids is widespread • Where resistant pests are present Smart Bug Killer Concentrate is unlikely to give control • Do not use Smart bug Killer on ornamental garden plants/ house plants more than 2 times per year.

HOW TO APPLY
Applications can be made either using a handheld sprayer or a knapsack sprayer.

Outdoor Crops	Pest	Dilution rate (ml product in litres of water)	Maximum Number of Applications per year	Minimum interval between sprays (days)	Latest time of application before harvest (days)
Ornamental garden plants	Aphids & Lily Beetle	4ml in 1.5 litres	2	7	Not applicable
	Scales	4ml in 1.2 litres	1	Not applicable	Not applicable
Lettuce	Aphids	4ml in 0.6 litre	1	Not applicable	3
Peas / Beans	Aphids	4ml in 1.2 litres	1	Not applicable	7
Cabbage, Broccoli / Calabrese, Cauliflower, Sprouts, Kale, Swede	Aphids	4ml in 0.8 litre	1	Not applicable	10

Indoor / Glasshouse Crops	Pest	Dilution rate (ml product in litres of water)	Maximum Number of Applications per year	Minimum interval between sprays (days)	Latest time of application before harvest (days)
Ornamental garden plants / house plants	Aphids	4ml in 1.5 litres	2	7	Not applicable
	Whitefly	4ml in 1 litre	1	Not applicable	
	Scales	4ml in 1.2 litres	1	Not applicable	
Tomato, Pepper, Chilli, Cucumber, Aubergine, Courgette and Summer Squash	Aphids & Whitefly	4ml in 0.7 litre	1	Not applicable	3
Lettuce	Aphids	4ml in 0.6 litre	1	Not applicable	3

WHERE TO USE
Controls Aphids (Greenfly, Blackfly), Whitefly, Scale insects and Lily Beetles. For use outdoors to control aphids, scales and lily beetles in ornamental flowers and shrubs, and to control aphids in lettuce, cabbage, broccoli/ calabrese, cauliflower, sprouts, swede, kale, peas & beans. For use indoors, in the home, glasshouse and conservatory to control aphids, whitefly and scales in ornamental flowers and shrubs, and to control aphids and whitefly in tomato, pepper, chilli, aubergine, cucumber, courgette and summer squash, as well as aphids in lettuce.

HOW TO USE

SHAKE WELL BEFORE USE
1. Fill measuring cup to 4ml level and add to sprayer with the water volume indicated in the table for the relevant crop and pest.
2. Mix well and use straight away.
3. Spray thoroughly to wet upper and lower surfaces of the leaves & stems to ensure a visible even coverage, but not to run off.
4. Rinse sprayer thoroughly after use and dispose of washings safely by pouring onto bare soil.
Once the bottle is empty, RINSE CONTAINER THOROUGHLY before disposal by manually rinsing three times and adding the washings to application equipment at time of filling. Dispose of empty container safely.

WARNING

FOR USE ONLY AS AN AMATEUR INSECTICIDE

To avoid risks to human health and the environment, comply with the instructions for use.

SAFETY INSTRUCTIONS
Protection during use.
• Keep out of reach of children
• If medical advice is needed, have product container or label at hand.
• Read carefully and follow all instructions.

ENVIRONMENTAL PROTECTION
• Toxic to aquatic life with long lasting effects.
• Direct spray away from ponds and other surface water bodies.
• Avoid release to the environment.
• Do not apply to run-off.
• Risk to non-target insects or other arthropods.
• Do not contaminate water with the product or its container.

STORAGE AND DISPOSAL
• KEEP PRODUCT AWAY FROM CHILDREN AND PETS.
•KEEP AWAY FROM FOOD AND DRINK
•KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed in a safe place.
•Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of in the dustbin. Contact your local council for details.
•Do not empty into drains.
•Collect Spillage
•PROTECT FROM FROST.

SMART BUG KILLER CONCENTRATE

MAPP 20368

Smart Bug Killer Concentrate is a concentrate insecticide for use in the home, garden, greenhouse or conservatory. It can be used on a wide range of crops such as ornamentals, lettuce, cabbage, broccoli / calabrese, cauliflower, sprouts, swede, kale, peas, beans and fruiting vegetables such as tomato, pepper, chilli, aubergine, cucumber and summer squash.

Smart Bug Killer Concentrate is a systemic insecticide intended for the control of sucking pests such as aphids, whiteflies and scales, it also works against Lily beetles too. The active ingredient - Flupyradifurone is a new foliar insecticide belonging to the butenolide chemical class. It kills pests on contact but also works systemically from inside the plant to control any future attack. Pests stop feeding after 1 – 2 hours and efficacy is visible after 1 day.

always wear gloves when gardening

Keep children and pets away from treated areas until spray has dried
