High Performance Slug Control

- 10 years expertise and field development making SluxxHP the leading slug pellet in the market
- High quality durum pasta formulation making the pellet very palatable to slugs
- Uniform pellet size, no dust, Good spreading characteristics
- High number of baiting points compared to leading alternatives
- SluxxHP contains a food grade anti moulding agent ensuring durability in wet conditions
- Active ingredients are stabilized to give improved performance during wet conditions

SluxxHP carries the Ferric Field Technology trademark, a sign of quality

FERRIC FIELD TECHNOLOGY

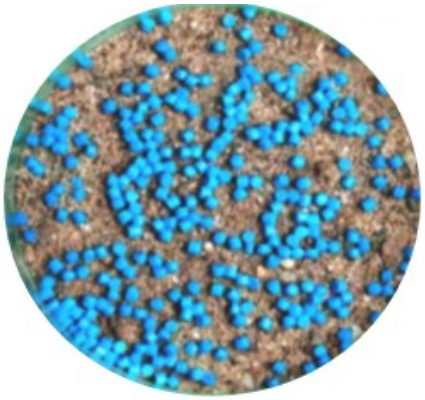

High quality uniform pellets

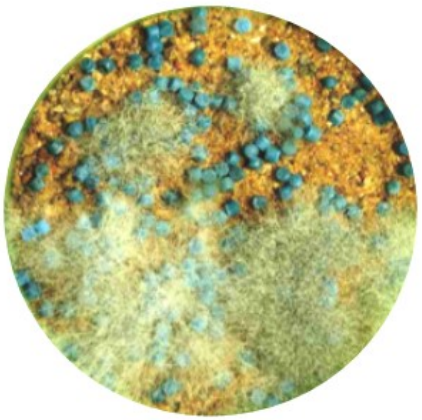

Alternative slug pellet

Excellent Mould Resistance

SLUXX HP 4 DAT

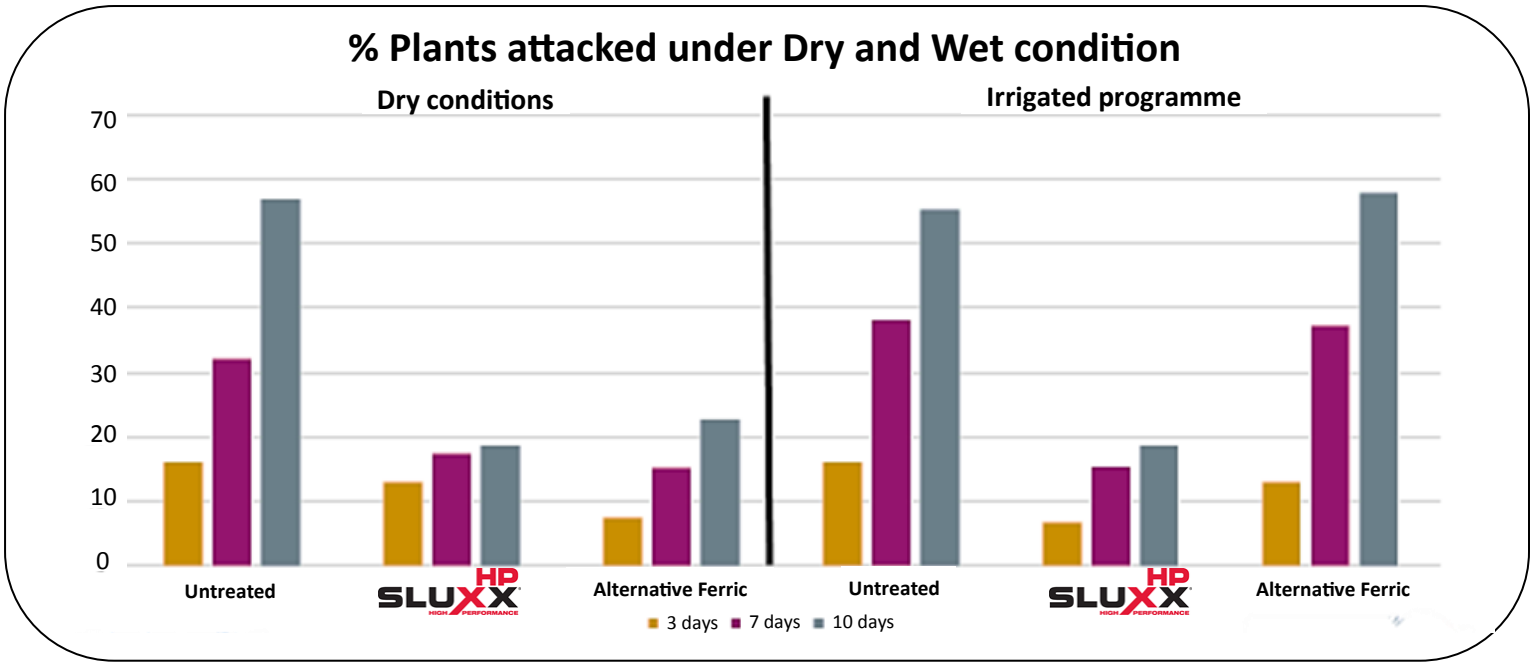

Ref. Metaldehyde 4DAT

USE PLANT PROTECTION PRODUCTS SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.

SLUXX HP® is a registered trademark of W. Neudorff GmbH KG. SLUXX HP® contains ferric phosphate. MAPP no. 16571
Marketed by: Certis, 3 Riverside, Suite 5, Granta Park, Great Abington, Cambridge CB21 6AD.
Tel: 0845 373 0305 Fax: 01223 891210 www.certiseurope.co.uk Certis®2019

Not all ferric phosphate pellets are the same.

A very simple experiment clearly shows this:

- Grow susceptible plants in a tray.
- Apply slug pellets. Keep dry or irrigate with 5mm of rain twice per day
- After 4 days introduce a known quantity of grey field slugs
- Assess plant damage 3-10 days after slugs have been introduced

Under <u>wet</u> conditions, when slugs are most active, the SluxxHP formulation shows significantly better levels of protection versus a leading Ferric alternative.

<u>Baiting points</u>

	Sluxx HP		Alternative ferric phosphate	
Dose rate	7 kg	5 kg	7 kg	5 kg
Approx. number of pellets/m²	60	43	43	31

- SluxxHP offers an excellent number of baiting points when compared to an alternative leading ferric phosphate pellet.
