Spruzit®

Broad spectrum, contact insecticide for use against biting and sucking insects in a range of edible and non-edible crops, in protected and outdoor situations.

- Active ingredient: 4.59 g/L pyrethrins and 825.3 g/Kg rapeseed oil
- Oil content aids virus reduction and has physical impact on target
- Short persistence and no harvest interval
- Suitable for IPM and low residue programmes
- Good anti-resistance strategy
- Does NOT contain PBO (piperonyl butoxide)
- Quick knockdown of target pests, especially caterpillars
- Organically approved

Double Defence

Mean number of willow-carrot aphids *(C. aegopodii)* surviving treatment with bio-insecticides 2 weeks after treatment.

Based on information from AHDB projects: SCPETRE plus, FV460, AHDB/Syngenta Pest Bulletins, AHDB Aphid News.

Formulation	Emulsifiable concentrate containing 4.59 g/L pyrethrins and 825.3 g/Kg rapeseed oil
