TRIAD - A multi nutrient liquid fertiliser

DANGER
Causes serious eye damage.
May cause damage to organs through prolonged or repeated exposure.
Very toxic to aquatic life with long lasting effects.
Do not eat, drink, or smoke when using this product.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN: Wash with plenty of water. Wash hands and exposed skin thoroughly after handling.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Remove person to fresh air and keep comfortable for breathing.
If medical advice is needed, have product container or label at hand.
Read label before use.

To avoid risks to human health and the environment, comply with the instructions for use.

		w/v %
Amide nitrogen	(N)	2.3
Sulphur	(SO3)	13.0
Copper	(Cu)	1.25
Manganese	(Mn)	5.0
Zinc	(Zn)	3.75

IMPORTANT INFORMATION

TRIAD is an important part of any IPM strategy, providing the nutritional input to complement bio-fungicides and conventional chemistry. Fortifying the plant from within to protect it throughout.

Crops/situations
Ornamentals, protected edibles, soft fruit, top fruit, vines.

Full application and crop specific details are given on the attached leaflet.

STORAGE

Protect from frost. Store away from direct sunlight. Keep away from food and feedstuffs. Ensure adequate ventilation. If product has been stored in poor conditions, open slowly to safely release any gases present.

DIRECTIONS FOR USE: ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE

TRIAD is an important part of any IPM strategy, providing the nutritional input to complement bio-fungicides and conventional chemistry. Fortifying the plant from within to protect it throughout.
Used to treat copper, manganese, and zinc deficiency.

Typical visual deficiency symptoms (can vary between crops)	
Copper	affects younger leaves, leaf tips can die back and have a twisted appearance.
Manganese	affects younger leaves, interveinal chlorosis. In severe cases affected areas can become necrotic.
Zinc	affects younger leaves, poor rooting with stunted growth and interveinal chlorosis.

Important: This information is approved as part of the product label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.
Compatibility: For details of compatibilities, contact your distributor or local AIVA FERTILISER representative.

Important information
Use as part of a good agronomic foliar feed programme as part of an Integrated Pest Management (IPM) Strategy.
Take tissue tests to ascertain whether TRIAD is required to prevent phytotoxicity, nutrient luxury uptake and nutrient antagonisms within the plant.
Do not apply when crop it under severe stress, or in adverse weather conditions.
Apply with foliar adjuvant if not applying with fungicides.
Contact your AIVA FERTILISER Nutrition Consultant for agronomic advice regarding TRIAD.

APPLICATION GUIDELINES

Mixing guide
Fill sprayer with half the required water, shake TRIAD container and add required amount to sprayer tank whilst maintaining constant agitation. Add remaining water to sprayer tank, agitate and spray.
Apply in a minimum of 400L/ha of water.

Crop	Timing	Rate L/ha	Water rate L/ha	Comments
Ornamentals	From 2-4 true leaves	1-2	400-600	Repeat every 10-14 days
Protected edibles	From 2-4 true leaves	1-2	400-600	Repeat every 10-14 days
Soft fruit	From green bud	1-2	400-600	Repeat every 10-14 days
Top fruit	From petal fall	1-3	400-600	Repeat every 10-14 days
Vines	From 2-4 true leaves	1-3	400-600	Repeat every 10-14 days

HANDLING AND STORAGE

Do not contaminate water, food, or feed by storage or disposal.
Storage: Protect from frost. Store away from direct sunlight. Keep away from food and feedstuffs. Ensure adequate ventilation. If product has been stored in poor conditions, open slowly to safely release any gases present.
Accidental release measures: Spillages or uncontrolled discharges into watercourses must be alerted to the appropriate regulatory body. Collect spillage. Absorb spillages onto sand, earth or any absorbent material. Contain spillages with sand, earth or any absorbent material. Earth may be shovelled to contain spillage and to avoid contamination of sewers and watercourses.
Container handling: On emptying the container, rinse container thoroughly by using an integrated pressure rinsing device or by manually rinsing three times. Add washings to tank at time of filling and dispose of container safely. Container may be offered for recycling if available or dispose of in a sanitary landfill, or by other procedures allowed by state and authorities.

CONDITIONS OF SUPPLY

AIVA FERTILISER guarantees that TRIAD is fit for the purpose and conforms to the specifications stated on this label. AIVA FERTILISER gives no warranty, express or implied, including the warranties of commercially acceptable quality and/or fitness for any particular purpose concerning this material, other than those which are stated on this label, and will not be liable for any direct or indirect damage which results from incorrect use of the product or non-compliance with the directions of this label.
