

## Aranet Introductory Packages

To help you get started with Aranet, we have designed crop-specific sensor packages, all **offered at a 10% discount**. Each package has been designed to capture the most relevant data for these production systems:

### All packages contain:

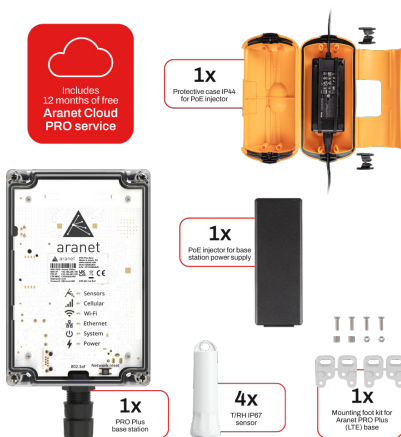

- 365-day subscription to the Aranet Cloud Pro
- Aranet Base Station Pro LTE, plus PoE injector and protective case

### ORNAMENTALS INTRODUCTORY PACKAGE

Monitor a range of metrics, including plant/air temperature and relative humidity, crucial for predicting disease development. Keep an eye on your irrigation and EC levels to ensure optimal root growth and plant health:

- 5 x T/RH Sensor
- 1 x WET150 Soil Sensor
- 2 x Soil Moisture Sensor
- 1 x IR Plant Temperature Sensor

### PROPAGATION INTRODUCTORY PACKAGE

Focused on helping you monitor optimal temperature and humidity, ensuring optimal conditions for vulnerable new plants:

- 4 x T/RH Sensor
