

For our full range of tree care products, please view our website, or contact your Area Sales Manager

Spiral Tree Guards

Spiral tree guards stand up to all weather conditions - they do not shrink and allow air to circulate through the holes. They are easy to unfurl, fit and are cost effective.

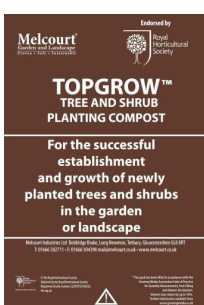

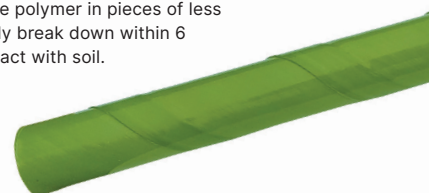

- Can promote thickening for hedging applications
- Made from 100% recycled PVC that will stand up to animals and strimmers etc
- Colours: Brown, Clear

Biodegradable Spiral Tree Guards

100% biodegradable. Biodegradable Spiral Tree Guards have passed all required tests from EU Guidelines at an independent laboratory to be classified as fully compostable, the material has gained the DIN CERTCO certificate. This whole process is temperature and humidity dependant where the polymer in pieces of less than 2mm thick will completely break down within 6 summer months when in contact with soil.

- Made primarily of PAA
- UV protection: 4 Years

Melcourt TopGrow

A carefully formulated tree and shrub planting compost, 100% peat-free and containing balanced slow-release nutrients, used to aid the successful establishment of newly planted trees and shrubs. Can promote thickening for hedging applications.

Osmocote PrePlant

A season long controlled release fertiliser for the pre-planting of shrubs, trees and borders.

Analysis 17-9-10+2MgO+TE
Size 1kg

Sinclair Tree & Shrub

A peat based growing medium prepared from rich dark peat with high buffer capacity and high moisture retention for use when planting out into the ground.

Rootgrow Professional

Rootgrow™ Professional contains pure mycorrhizal fungi for professional users or when larger planting projects are undertaken. For bare root, to shrub and tree planting.

Available in 2.5lit, 5lit and 10lit

Super-Soft Tree Ties

Made from soft rubber plastic with moulded grooves to prevent bark damage. The tie acts as a cushion between the tree and the support stake. Because of the elasticity of the material the tree will not be disfigured, the tie stretches as the tree grows - preventing wounds where diseases can enter.

- Weather resistant and UV stabilised
- Fast fit design

Soft Buckle Tree Ties

Made from soft black PVC, they will stretch as the tree grows and are easily adjustable. They are supplied with a hoop collar and spacer. Popular in amenity situations.

Tree Support Ties

Designed to support and protect the tree when supported by steel, nylon wire and non slip cord.

The tie acts as a cushion between the wire/cord and the tree.

Rose and Shrub Ties

The Rainbow Buckle is uniquely strong, manufactured in polycarbonate, which is needed to withstand the incredibly high loads that winds can apply to the middle of the buckle.

This tree tie comes with a collar that fits between the tree and stake to prevent rubbing allowing some stretch to give the tree some movement which helps it develop its own resistance to the wind.

Soft Strapping and Cushions

Soft strapping is UV resistant, and does not stiffen with age. In 25mm and 38mm widths - both sizes come in standard duty and heavy duty versions. Cushions and hoop collars to fit.

Chainlock Tree Strapping

Strong, re-usable and economic system for tying trees.

Softwood Tree Stakes

- Square softwood stakes
- Pointed at one end.
- Pressure treated.

Machine Rounded Tree Stakes/Support Posts

- Pressure treated.
- Pointed at one end.
