

# EnzyMas™

## *Let nature do the work*

A long lasting environmentally friendly organic cleaner, effective against atmospheric pollution and grease stains on all exterior surfaces.

EnzyMas contains enzymes that dissolve the pollutants, proteins, and starches that form scum and algae build up. EnzyMas then breaks down completely in the environment and when used as the label states is harmless to humans and animals.

After applying EnzyMas you can easily remove stubborn dirt by rinsing the treated surface with water.

when used as the label states is harmless to humans and animals.

# Why Use EnzyMas?

- Takes longer for pollutants to stick to treated surfaces post application.
- Easily sprayed onto roofs, screens, glass, patios, and polytunnels.
- A liquid organic enzyme based cleaner that dissolves proteins and starch contaminations.
- Works quickly and effectively to remove pollutants.
- Harmless to humans and animals.
- 100% biodegradable.

**Do not apply before forecasted heavy rain or in extreme heat**

1 Litre of Enzymas will cover 25-60m<sup>2</sup> depending on dilution rate. Make sure the surface is wet and rinsed after application.
