### Blocking Discs for Danish Trolleys or CC Containers

With our blocking discs, you easily secure your Danish trolleys, auction carts or CC containers. Once you put a caster in the hole of a disc, the cart will no longer move/roll, which makes applying wrapping film to the cart an easy task.

The blocking discs can easily be transported or placed thanks to their simple design. The bottom is equipped with anti-slip, and the extra steel rings prevent them from sagging.

### Horti-Wrap™ Machine

The Horti-Wrap™ Machine employs a simple concept to wrap Danish trolleys with most kinds of film. Trolleys are pushed onto the turntable and as this is manually rotated, the film is wound around the trolley as it moves up the 2m mast, wrapping the trolley from the base to the top.

Movement is controlled by foot pressure on the base plate. Using large machine size rolls of film reduces costs compared to hand wrapping.

### Wippon Car (Danish Trolley Mover)

A simple yet effective way of moving Danish trolleys around the nursery or garden centre.

The wippon car is located under the trolley to enable the pneumatic wheels to support the trolley and move over uneven ground. The trolley can be locked onto the Wippon car during movement.

Wheels: 100mm wide x 400mm diameter
