Turf Dressing

Lawn Dressing 70/30

Leighton Buzzard iron sand, 4mm screened loam.

- 70% sand, 30% loam
- Suitable for lawn dressing, levelling and construction

Size 25kg

Thomas Elliotts Lawn Sand

Feeds toughened grass.

Size 25kg

Sinclair Lawn Sand

An approved professional turf treatment. Use on amenity grassland and managed amenity turf. Kills moss.

Active Ingredient 14.1% w/w iron sulphate heptahydrate.

Size 25kg

Turf Fertilisers

Greenmaster Pro-Lite Autumn

Ideal first granular fertiliser application of the season or applied in autumn to harden turf. Low nitrogen and high potassium. Controls moss, whilst strengthening the sward to overcome any mechanical damage. Improves health and appearance of fine turf.

Size 25kg

For use on fine turf.

Sportsmaster Pre-Seeder

Ideal for use prior to seeding/over seeding or laying turf. High phosphorus analysis to enhance seed establishment and better rooting.

Mini granules for ease of application and even distribution.

Size 25kg

For use in outfield situations.

Sportsmaster Autumn

High phosphate and potash with cost-effective application rates. Ensures healthy root growth in winter and better rooting.

Mini granules for ease of application and even distribution.

Size 25kg

For use in outfield situations.

Gazon Pur

Lawn fertiliser with indirect action against moss

Compound organic-mineral fertiliser. Long lasting constant effect. Indirect action against moss, the moss is attacked from the roots, turns yellow, dies off after 3 weeks and can easily be removed by scarifying or aerating. Variety of nutrients stimulates the existing soil life so that mown grass decomposes faster reducing the chance of thatch and moss formation. The high potassium strengthens the grass and increases its resistance to drought, frost and treading.

Ideal for lawns, playing fields, sports fields especially where mulch mowing applied.

Size 25kg

Viano Fertiliser Autumn Lawn Treatment

Autumn Lawn Treatment for autumn recovery, winter defence and spring health.

Autumn Lawn Treatment is an organic-based long lasting fertiliser with added Humifirst (humic acids). It stimulates root growth and prepares the grass against adverse conditions such as stress, waterlogging, snow or scarification, giving your lawn the best start in the spring. An ideal treatment for moss, it contains a high potash content and the moss dies by indirect action. Added magnesium will strengthen the grass and ensure a strong green colour.

The granular form is best applied using a wheeled spreader or evenly by hand.

Size 10kg

Maxicrop®

Maxicrop Complete Feed

A compound fertiliser in a seaweed extract base. Can be used on all flowers, vegetables, salad crops, fruit, trees and shrubs all around the garden.

Use as a root drench or depending on the plant, foliar spray.

Size 10lt

Maxicrop Fine Turf Lawn Feed

Seaweed Extract with a zero phosphate fertiliser formulation. Ideal as an in season turf stimulant with nitrogen and potash to provide a rapid fertiliser response.

- Rapid response in top growth with minimal scorch effect
- Long term seaweed extract action stimulates rooting and tillering
- Improves wear recovery, growth and drought resistance
- Particularly useful on sand constructed surfaces
- Zero phosphate helps discourage weed annual meadowgrass
- Provides 1g N and 0.5g K20/sq²

Size 10lt

Maxicrop Professional Moss Killer & Conditioner

High phosphate and potash with cost-effective application rates. Ensures healthy root growth in winter and better rooting.

Mini granules for ease of application and even distribution.

Size 10lt

Enforcer

An approved professional herbicide for control of broad-leaved weeds. For use on managed amenity turf.

Active ingredients 70 g/L 2,4-D, 70 g/l MCPA, 42 g/L mecoprop-P and 20 g/L dicamba.

Size 5lt

Thrust

An approved professional agricultural / amenity herbicide for the selective control of annual and perennial broad-leaved weeds. Specific mention of creeping thistle, creeping buttercup, broad-leaved dock, curled dock, and ragwort.

Active ingredients 344 g/L 2,4-D and 120 g/L dicamba as the dimethylamine salt.

Size 5lt

Praxys

An approved professional post emergence herbicide for control of daisy, dandelion, clover, buttercup, ribwort plantain and other broad-leaved weeds. For use on managed amenity turf, including lawns and amenity grassland.

Active ingredients 100 g/L fluroxypyr, 80 g/L clopyralid and 2.5 g/L florasulam.

Size 2lt

Finalsan

An approved professional non-selective contact herbicide. Activity on all green plant parts against annual and perennial weeds, mosses and algae. Effective against Equisetum sp. (Mare's tail).

Active ingredients 186.7 g/L pelargonic acid.

Size 10lt

Grass seeds to suit all requirements

A spreader for both summer and winter

Cresco Broadcast Spreader 20SW

The Cresco 20SW provides the ultimate spreader for both winter and summer. With the qualities of fertiliser and salt being so different, it's very difficult to go from spreading salt to spreading fertiliser with a traditional spreader. However, with the Cresco 20SW Slide System Technology, this is now possible.

Whether you're spreading salt on large car parks in the winter, or fertiliser around an estate in the summer, you will achieve high-quality results from this broadcast spreader.

- Go from spreading salt to fertiliser in seconds with the adjustable slide
- Large agitator to increase flow
- Perfect for large areas, up to 3500m²
- Pneumatic wheels offer smooth manoeuvrability over rough terrain
- New hopper mould ensures no product will be left behind
- 20 different fertiliser settings
- High-speed self-centering gearbox, tested over 1000 hours of use
- Spread width: 3-5m
- Capacity: 26kg of salt/fertiliser
