

# Transform your sports turf with BACTIVA Soil Amendment

An innovative biological solution for healthier, stronger turf

BACTIVA Soil Amendment is a water dispersible soil inoculant that strengthens the plant root and enhances resistance. BACTIVA contains *Bacillus subtilis* and several species of the beneficial fungus *Trichoderma* that strengthens grass in a natural way.

## Why Choose BACTIVA?

- **Improve Soil Health:** Advanced microbial technology to rejuvenate your turf.
- **Strengthen Roots:** Promote deeper, stronger root systems.
- **Sustainable Practices:** Eco-friendly solutions designed for the modern groundskeeper.
- Certified under FiBL as an EU Organic product.
