fargro®

We are pleased to present our new National Product Catalogue.
We continue to source and develop a wide range of innovative and unique products to sit alongside the well-established brands that Fargro represent.

This year we have more products than ever and hope you agree that there is plenty of choice for both the grower and retail sectors. We also offer a bespoke design and sourcing service for many of our products and look forward to discussing your needs and requirements.

Fargro believes in responsible sourcing of all its products.
Fargro are members of Sedex and have completed a full ethical trading audit.

Please Note * After £ sign indicates product is Barcoded.

Please Note

All prices quoted in this catalogue are correct at the time of going to print.
All prices quoted exclude V.A.T. Prices may be subject to alterations due to changes in raw material costs and exchange rate fluctuations. All prices are subject to a minimum order value.
Distributors reserve the right to amend prices accordingly if minimum order values are not reached.
Please visit our web site at www.fargro.co.uk for any price changes. Whilst we do our best to provide accurate information regarding measurements and colour descriptions, there may be variation for some of these products due to the manufacturing processes involved. All pack sizes stated are correct at time of going to print although on occasions these may change during the year. This catalogue is available on line at www.fargro.co.uk just follow the link for National Product catalogue.

Empot Pot Handling Systems

Empot
Pot Handling Systems

The extensive range of pot carriers for round and square pots:

- Eliminates the tedium of large container movement.
  A proven investment ensuring greater productivity
- Help keep plants upright under adverse weather and ground conditions
- Injection moulded in black polypropylene, lightweight, robust and durable
- Designed to allow pots to stand directly on the ground or matting
  Stacks compactly when not in use.
- All trays hold round or square pots.

Pots, Containers, Trays, Baskets & Planters
Mara Trays

Mara Trays
Without Legs
Tray Dimentions:
540 mm x 310 mm

The range of Mara Trays can be used for both transport and cultivation and are made with a reinforced rim. This open structure makes them ideal for spacing plants within the nursery. These trays are robust, competitively priced and will last for many years.

Card Holder Range
Telescopic Adjustable Card Holders

Adjusts in 4" (10 cm) stages from 24" (60 cm) to about 36" (90 cm) by extending or retracting the inner stem. Eight buttons hold the card securely. The stem of the card holder fits into a 10" (25 cm) square base which is very sturdy and stable. It can be screwed down or plants can be placed on the base for support in windy situations. Flat or angled heads are available made from a highly UV resistant black durable plastic, now with easier adjusting stages.

With a choice of a flat double sided head, so that two cards can be held, or a single sided angled head. Eight buttons hold down the card securely. It can be screwed down or pots can be placed on its 6" (15 cm) square base. It is made from a very strong black UV resistant plastic.

ReduSystems®

ReduSystems coatings are easy to apply, highly wear-resistant and can be removed at any time. No matter where in the world a crop is grown, ReduSystems offers crop specific value with innovative products and specialized solutions. Want to know which ReduSystems coating is best for your crop and type of greenhouse?

Use the ReduWizard tool on our website for a free product advice.

WWW.REDUSYSTEMS.CO.UK

ReduSol

ReduSol is a shading agent that reflects high levels of solar energy. It is wear-resistant and can be easily removed with ReduClean.

ReduFuse

ReduFuse is a coating that diffuses the light when it enters the greenhouse. Diffused light penetrates deeper into the crop and can improve production and quality.

ReduFuse IR

ReduFuse IR is a coating that reduces heat radiation while diffusing the light when it enters the greenhouse.

ReduFlex Green

ReduFlex Green is a photo-selective coating that reflects more photosynthesis minor colours, green and yellow light and also infrared radiation. This improves the climate for certain crops.

ReduFlex Blue

ReduFlex Blue is a photo-selective coating which has a beneficial effect on the cultivation and production of cut roses because it transmits relatively less blue light than red light. It also reflects high levels of infrared radiation (heat).

ReduHeat

ReduHeat is a protective agent containing a special pigment that transmits grow-light (PAR) while reflecting most of the heat radiation.

Introducing Fargro's range of Plant Protection Products available from your local distributor

FLiPPER

Lepinox® Plus

30MHz

ReduClean

ReduClean is a special cleaning solution, designed to remove ReduSystems coatings. It is simple to use on all greenhouse materials, including glass, acrylic, polycarbonate and plastic film. After applying the product, rainwater is usually enough for a clean result. ReduClean is economical and safe to use.

Other key grower requisites include

GS-4
The Industry standard in glass cleaning

AntiCondens
Efficient protection from condensation

PipePaint
Solvent free anti-corrosion paint

ReduWizard®

Have you tried ReduSystems' new online advice application? The ReduWizard advises you about which ReduSystems product to use based on your location and using a database containing worldwide climate details such as rainfall, temperature and radiation statistics.

ReduWizard then works out the amount of product you need to use for the desired effect in your greenhouse and it will show you a list of features of the selected ReduSystems product.

Vitacress and ReduHeat
Simon Smith, General Manager West End Nursery

Good light levels are vital to pot herb production; both for speed of throughput and crop quality, but plants need to be protected too, from excessive summer temperatures.

Pot herbs need a 'buoyant' atmosphere so the glasshouse is vented throughout the summer. "The properties of ReduHeat mean we can keep minimum vent in dull weather without losing too much heat because there is still enough solar gain," says Simon. "The coating also helps prevent the stress the crop can experience when we get extremes of temperature, for example, when we move from dull to bright weather." Simon has been really pleased with the consistency ReduHeat offers over the four to five months he uses it. "Compared with coatings I've used in the past it breaks down less readily and is less prone to washing off in a rainy summer – yet it's very easy to remove, with ReduClean, when you want to," he says.

New Place Nurseries and Redusol
Steve Smart, Nursery Manager Chichester Area

"It's vital to relieve plants from stress, especially during establishment, and, for us, the use of a shade coating has become integral to our management," says Steve Smart, Nursery Manager responsible for New Place Nurseries' production units in the Chichester area of West Sussex, in the south of England. "Cooling the glasshouses to reduce crop stress is one of three key reasons for using the coating," says Steve. "It also enables us to scale back on the irrigation we need to apply; and it provides much better summer working conditions for our staff."
