Welcome

National Product Catalogue

We are pleased to present our National Product Catalogue 24-25 which boasts over 250 new lines for both the grower and retail sectors.

Our exclusive range of plastic planters and containers has been extended to introduce brand new designs and colours, ideal for both the grower and retailer. We are also delighted to be adding new designs to our selection of Magnesia garden planters and ornaments, alongside new ranges of metal and polyresin retail products.

Our Store Ready retail solutions now include our new Kubu rattan baskets alongside our existing ceramic range.

Fargro's commitment to sustainability can be clearly seen with our new Eco Flexi Tubs and Infinity containers both made from recycled Tetra Pak style material.

As well as a fantastic and diverse assortment of products, we're proud to offer a bespoke design and sourcing service to develop exclusive products based on your particular requirements.

To see the full range of stocked lines, new ideas, and concepts, just make an appointment to visit our showroom and meet with our dedicated team.

Mark I'Anson & Kieran Daly

Fargro believes in responsible sourcing of all its products. Fargro are members of Sedex and have completed a full ethical trading audit. Fargro holds an FSC chain of custody certificate.

All prices quoted online and in the price list exclude VAT and delivery. All prices are subject to a minimum order value. Whilst we do our best to provide accurate product information such as measurements and colour descriptions, there may be variations. All pack sizes stated are correct at the time of going to print although on occasions these may change during the year.

CTi Planters

CTi and Fargo Working Together

Fargo have collaborated with CTi plastics to develop and bring to the market a premium range of plastic pots and containers.

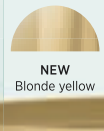

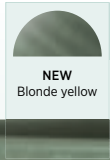

We are pleased to introduce our new styles for 2025.

Innovation in trends, colour and quality is at the heart of every pot.

CTi uses 85-100% post consumer recycled plastic and water based paints.

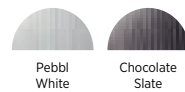

*Embracing
innovation*

Look out for
the latest 2025
colour trends

CTi Premium Collection

Our high end premium containers are guaranteed to make an impact. Made to be long lasting, these items are sure to make a bold statement in any location.

FLOW POT

GO WITH THE FLOW

A system that works

Flow Pot is a global initiative that uses innovative, environmentally friendly plastic derived from ocean bound and post-consumer waste.

Flow Plastic is ethically-sourced using various suppliers that collect, sort, and sanitise discarded plastic so that it may be given a second life in the form of these beautiful pots.

Through careful deliberation and rigorous quality control, we've created a balanced mixture that ensures the familiar quality and consistency associated with CTi.

Dune Series

Manufactured in Flow Blue.

Pasquini&Bini
where your roots are safe

Infinity

endless green innovation

■ INNOVATION

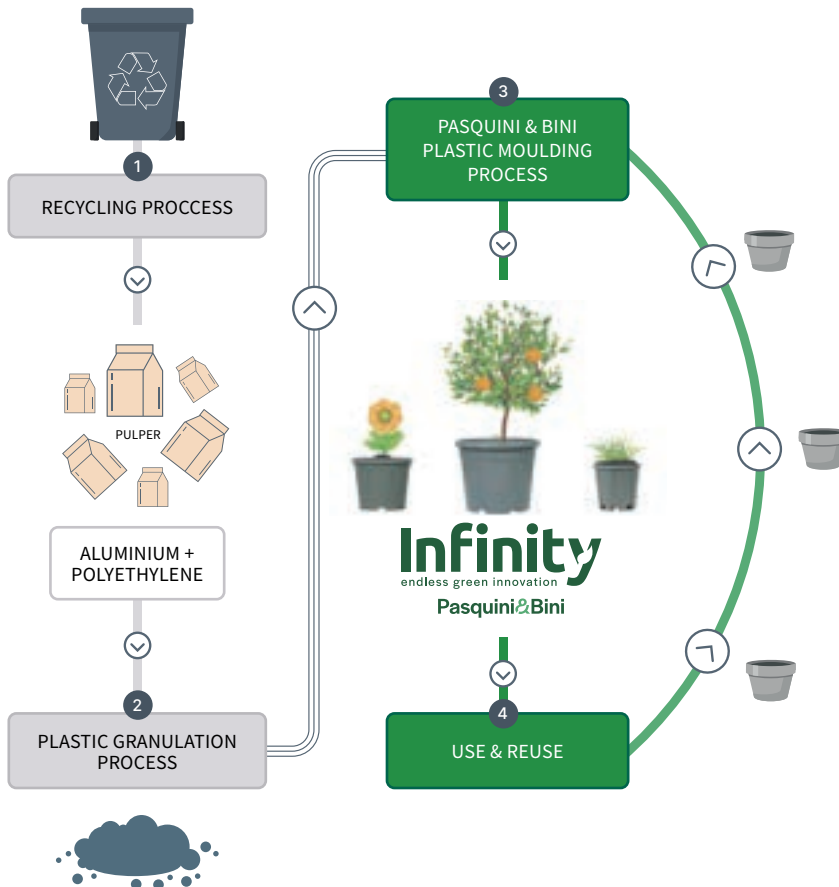

■ SUSTAINABILITY

■ EXCELLENCE: INFINITY

The new eco-sustainable grower pot range from Pasquini & Bini

Reducing, reusing and recycling are essential to help limit the effect our activities have on the environment. This has led to the development of a new recycled and recyclable raw material GranPlast.

What is GranPlast?

GranPlast is a material made from recycling Tetra Pak®-type packaging. Thanks to this innovative project, tonnes of Tetra Pak®-type drinks cartons discarded after use, are collected to transform them into a secondary-raw material.

By separating its components and extracting cellulose from TetraPack to create GranPlast from the remaining components of polythene and aluminium.

Pasquini & Bini manufacture the Infinity plant containers from GranPlast.

Pasquini&Bini
where your roots are safe

Infinity
endless green innovation

Infinity pots provide several advantages when it comes to growing plants:

1. Phytostimulation

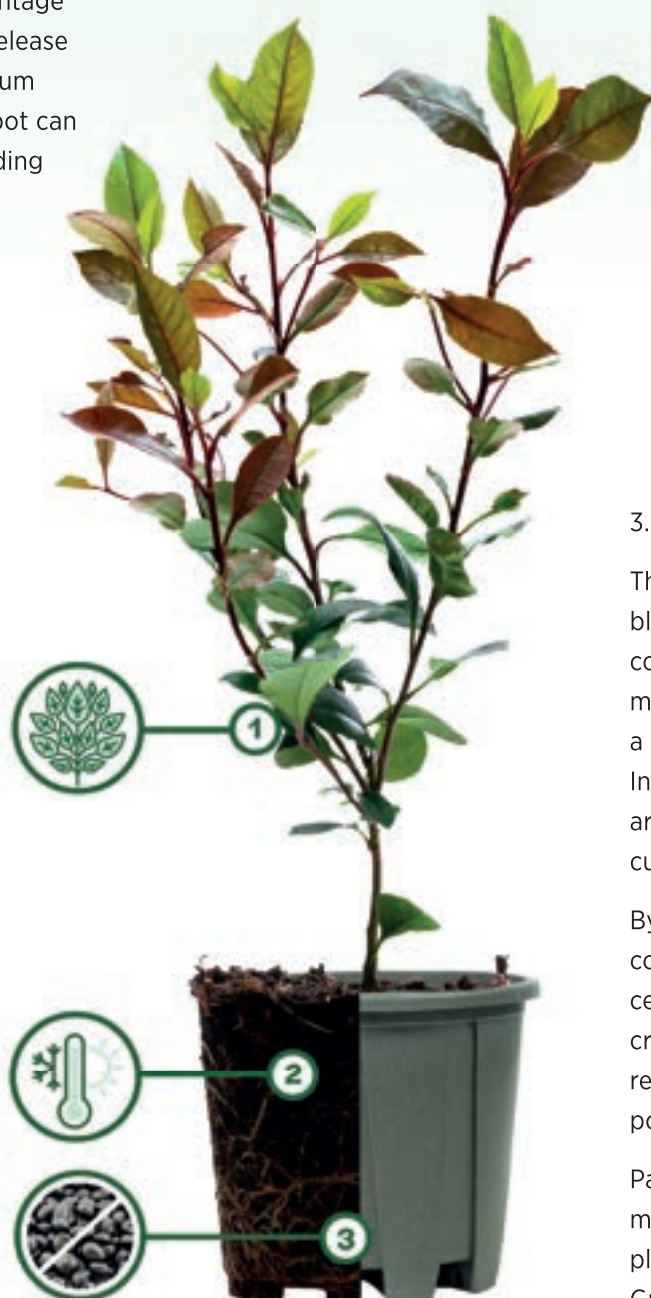

Infinity plant pots provide a positive environment for plants to grow in, promoting phytostimulation and improving root health. The advantage noted is that action due to the release of a small percentage of aluminium particles into the substrate the pot can be used in absolute safety including with edible crops

2. Temperature Control

Thanks to the qualities of GranPlast, the plant pots regulate root temperature, creating optimal conditions for the plants to grow. Infinity plant pots reduce the extent to which the substrate inside the pots overheats during the summer months, recording temperatures that are on average 5-7 degrees lower than black pots, with peaks of 10° during the hottest hours of the day.

This is of considerable benefit to the plant roots, and for their health in general, reducing stress to a minimum. In the winter or on days where there is little or no sun, the Infinity range behaves in the same way as the black PE pot.

The Infinity is much more than a plant pot, it is a commitment to a sustainable future, an initiative that proves how recycling and sustainability can go hand in hand.

3. Carbon Black Free

The total lack of carbon black simplifies disposal on completion of cultivation, making Infinity plant pots a sustainable choice. The Infinity plant containers are easily recycled through curb side recycling.

By separating its components and extracting cellulose from TetraPack to create GranPlast from the remaining components of polythene and aluminium.

Pasquini & Bini manufacture the Infinity plant containers from GranPlast.

Everywhere can be the right place for blueberries

The Pasquini & Bini pots are made from recycled post consumer plastic and are the perfect solution for blueberries.

- Healthier and stronger root system growth with greater yield
- Humidity and stagnation control
- Fertilisers and nutrients control
- Less environmental impact for a reduced use of chemical products
- pH control

Further ranges

Pasquini & Bini

Rotational Moulded Pots

The special manufacturing and finishing process involved in this technique generates “unique pieces” since it provides the pot with different colours and shades.

- Resistant to breakage
- Impermeable to frost damage

Rotational moulded pots are a non stocked item so lead times may vary.

HANGING BASKET RACK FOR DANISH TROLLEY

F/CODE	SIZE L x W CM	£
HGBH	225 x 87	134.78

The flower bucket rack is a shelf that can be placed in Danish trolleys and CC containers to display or transport flower buckets. Can also be used to transport 12" round cone hanging baskets. The rings are made of galvanised steel and have a diameter of 24cm.

This product can also be combined with the Horti-Display and Display-Maker.

FLOWER BUCKET RACK FOR DANISH TROLLEY

F/CODE	SIZE CM	£
HIFB	124 x 55	42.34

Blocking Discs

With blocking discs, you easily secure Danish trolleys, auction carts or CC containers. Once you put a caster in the hole of a disc, the cart will no longer move/roll, which makes applying wrapping film to the cart an easy task.

The blocking discs can easily be transported or placed thanks to their simple design. The bottom is equipped with anti-slip, and the extra steel rings prevent them from sagging.

BLOCKING DISC FOR DANISH TROLLEYS OR CC CONTAINERS

F/CODE	£ EACH
HORBDDT	29.57

Horti-Wrap™ Machine

The Horti-Wrap™ Machine employs a simple concept to wrap Danish trolleys with most kinds of film.

Trolleys are pushed onto the turntable and as this is manually rotated, the film is wound around the trolley as it moves up the 2m mast, wrapping the trolley from the base to the top.

Movement is controlled by foot pressure on the base plate. Using large machine-size rolls of film reduces costs compared to hand wrapping.

HORTI-WRAP™ MACHINE

F/CODE	£ EACH
HORTWRAP	2792.19

Wippon Transporters & Vehicles

A simple yet effective way of moving Danish trolleys around the nursery or garden centre.

The wippon car is located under the trolley to enable the pneumatic wheels to support the trolley and move over uneven ground. The trolley can be locked onto the wippon car during movement.

Wheels: 100mm wide x 400mm diameter.

WIPPON CAR DANISH TROLLEY MOVER

F/CODE	£ EACH
WWT	258.06

The 4x4 version of the wippon car has 4 wheels and a handle. This makes creating a train of wippon cars possible which can be pulled with an electric vehicle.

This makes the 4x4 wippon car perfect for the transportation of Danish trolleys and CC containers over soft surfaces such as ground covers or tiny gravel.

WIPPON WAGON TRANSPORTERS 4x4

F/CODE	£ EACH
WWT4	534.06

The H-400 is an electric powered tug that is used for pulling heavy loads, such as transportation trolleys and Danish trolleys filled with shelves. Thanks to its compact size, it is easy to manoeuvre.

A new digital controller puts the braking energy back into the battery again. The H-400 can be used for 24 hours after one battery charge.

Together with the correct couplings the H400 Tug can pull a train of Danish trolleys with ease.

- Supplied with AGM battery and charger
(Longer life lithium battery available on request)
- Length 90cm x Width 51cm x Height 104cm
- Towing capacity 640kg

Multikett Matting System

Multikett ground tiles are a practical alternative to concrete slabs for walkways and transporting CC containers. Their low weight allow them to quickly and easily be laid by hand with no compacted substructure required, creating a slip-resistant, low noise environment for customers and employees alike.

Manufactured from post-consumer cable sheathing, the mats are 100% recycled and 100% recyclable.

- Transform unpaved surfaces into customer-friendly areas
- No compacted substructure is required
- Rubber-like material reduces running and rolling noise
- Slip-resistant surface
- Can be driven over by a car
- 100% recycled and 100% recyclable material

IRRIGATION

Aquaflex® Irrigation Hose

Aquaflex®, an outstanding all-terrain UV resistant irrigation hose that delivers exceptional durability, flexibility and water flow performance.

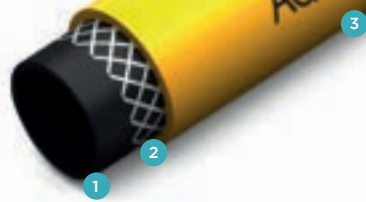

Manufactured in the UK, Aquaflex® kink resistant water hose is the ideal heavy-duty choice for all irrigation purposes, as well as for water supply and delivery applications.

The multi-layered construction of Aquaflex®, using custom formulated materials and our exclusive high tensile braiding reinforcement technology, delivers superior flexibility and resilience in all weather conditions, ensuring performance levels that exceed those of comparable products in the professional hose market.

Key Features

- UV resistant.
- Highly flexible – ease of handling.
- Abrasion and kink resistance.
- Ultra smooth liner ensuring water flow performance.
- Resistant to repeated pulling, bending, crushing.
- Available in 25m, 50m and 100m coils.
- RoHS 3 compliant.

1. High strength Phthalate free PVC
2. Polyester fiber reinforcement
3. UV resistant PVC cover

Sizes

Available in 25m, 50m and 100m coils

Applications

- Horticulture
- Agriculture
- Industrial
- Public sector
- Fruit, vegetable growers

Perforated Stretch Films

Introducing our new range of Perforated Trolley and Pallet stretch films.

Why choose our perforated films?

- Optimal ventilation: Prevents moisture build-up, perfect for perishables
- Robust support: Ensures load stability and reduces transport risks.

Handwrap

- Adhesive only on the inside of the film but extremely slippery (non adhesive) preventing wrapped trolleys or pallets sticking together.
- Holes are sized to prevent foliage from protruding through the film during transport but in sufficient quantity to ensure adequate ventilation for the plants
- Core length is 500mm to allow use of hand held applicator
- Strengthened edges to prevent ripping and facilitate locating the start of the film once more.
- Material Polyethylene (LLDPE) 100% recyclable
- Lightweight and durable.
