Welcome

We are pleased to present our National Product Catalogue 2025-26, showcasing over 200 new lines across both the grower and retail sectors.

This year's highlights include exciting additions to our exclusive planter range. Standout designs such as the Premium Hudson and Lucia planters from CTI offer refined styling and excellent quality. Continuing the theme, our Royal and Regency planters, along with the stone-look King Arta and Lady Cathryn, bring a touch of grandeur to any setting.

Our ever-popular magnesia collection has been expanded with a fun new selection featuring cows, foxes, owls, and birds, as well as a striking bronze-look range that includes an ape, cow, dog, and elephant - perfect for creating impact at retail.

We're also expanding our decorative stick offering, with a wide and eye-catching Mushroom range that's ideal for seasonal displays.

Retailers will be pleased to see the introduction of the DCM Retail range, delivering professional grade growing solutions for home gardeners.

To view our full product selection, we warmly invite you to visit either our Northern or Southern Showrooms, where you can explore our complete range and meet our team. As always, we continue to offer a bespoke design and sourcing service to develop exclusive products tailored to your needs.

We look forward to supporting your success in the year ahead.

With blocking discs, you easily secure Danish trolleys, auction carts or CC containers. Once you put a caster in the hole of a disc, the cart will no longer move/roll, which makes applying wrapping film to the cart an easy task.

The blocking discs can easily be transported or placed thanks to their simple design. The bottom is equipped with anti-slip, and the extra steel rings prevent them from sagging.

Introducing our range of Perforated Trolley and Pallet stretch films.

Perforated Stretch Films

Why choose our perforated films?

- Optimal ventilation: Prevents moisture build-up, perfect for perishables
- Robust support: Ensures load stability and reduces transport risks.

Handwrap

- Adhesive only on the inside of the film but extremely slippery (non adhesive) preventing wrapped trolleys or pallets sticking together.
- Holes are sized to prevent foliage from protruding through the film during transport but in sufficient quantity to ensure adequate ventilation for the plants
- Core length is 500mm to allow use of hand held applicator
- Strengthened edges to prevent ripping and facilitate locating the start of the film once more.
- Material Polyethylene (LLDPE) 100% recyclable
- Lightweight and durable.
