

## Aranet Introductory Packages

To help you get started with Aranet, we have designed crop-specific sensor packages, all **offered at a 10% discount**. Each package has been designed to capture the most relevant data for these production systems:

### All packages contain:

- 365-day subscription to the Aranet Cloud Pro
- Aranet Base Station Pro LTE, plus PoE injector and protective case

### PROTECTED SALADS AND SOFT FRUITS PACKAGE

For protected salad and soft fruit production, we have put together an introductory package for you to capture everything from monitoring plant temperatures and calculating Vapor Pressure Deficit, to volumetric water content, electrical conductivity, and temperature to optimise conditions for plant growth.

Designed to give insights into plant activity to maximise yields and keep environmental conditions in check. Monitor fertigation runoff and moisture levels to optimise irrigation schedules.

### Package includes:

- 2 x T/RH Sensor
- 1 x IR Plant Temperature Sensor
- 1 x PAR Sensor (with holder)
- 3 x WET150 Soil Sensor
- 3 x Drainage Sensor Kit
