

DUAL ACTION
Strulch[®]

**The Straw Mulch for Organic Gardening
with Slug and Snail Deterrent**

Environmentally Friendly

Manufactured in Britain, Strulch is made entirely from renewable and local resources and is verified for use in organic growing systems.

- Lightweight and easy to use
- pH neutral
- Reduces weed growth by up to 95%
- Lasts up to two years

Boasting lasting weed control that was tried and tested at the University of Leeds Experimental Gardens, The Earth Centre, The Eden Project and the RHS.

Adds Organic Matter

Strulch is biodegradable and will break down over time, adding valuable organic matter and nutrients to the soil. N – 0.6%, P2O5 – 0.2%, K2O – 1.6% percentage dry matter, plus calcium, magnesium and iron (0.75%) and organic acid preservative.

9kg bag covers approximately 3m²
